# MAJORS ADDRESS

## MAJORS ADDRESS

### MAJORS ADDRESS

## MAYOR'S ADDRESS.

---

GENTLEMEN OF THE CITY COUNCILS :

Agreeable to the requirement of our City Charter, we assemble this day to organize a new Municipal Government ; and we would humbly acknowledge the guardian care of a kind and watchful Providence in preserving our lives and health through another year—that no prevailing epidemic has been permitted to visit our city—that general prosperity has attended our citizens—that trade and manufactures have had a steady and healthy growth. A liberal legislation, but not an extravagant expenditure, is what our citizens expect and demand at our hands. Our taxes are burdensome, and would be so if we did not appropriate one dollar above what is absolutely necessary to pay the interest on our debt and State and County taxes. Near seventy-five thousand dollars have to be raised annually before we have one dollar to improve our streets and bridges, keep in repair our public buildings, supply our fire department, light our streets, and make all other necessary improvements. Our natural and local advantages are equal to any of our sister cities, and wherein we have fallen short in thrift and enterprise let us exert ourselves, withholding no reasonable appropriation that will encourage any laudable enterprise whereby we can increase the business of our city and thus enhance the value of our real estate.

Much has been accomplished the past year, and many improvements made on streets and sidewalks. I believe Macadamizing our streets is the cheapest, best and most durable method that can be pursued upon our clay soil. Continue the present system a few years and all our main thoroughfares will have a permanent and lasting road-bed.

To the generosity of the Directors of the Boston and Maine Railroad we are greatly indebted for the material to raise and

widen Charles street, leading to the new freight house ; by this favor the city of Dover has saved near two thousand dollars of expense in carting gravel and cost of the same.

A saving of expense can be made annually by abolishing all our highway districts, and letting one superintendent have the care and supervision of them all. Men whose daily employment is upon one kind of work through the year become so familiar that their services are worth double that of inexperienced workmen, and under this system profitable employees can be obtained. Most of the surveyors in our rural districts, at the season of the year when the highways should be repaired, are necessarily on their farms, and cannot attend to this duty without personal sacrifice ; consequently improvements are deferred so late in the season that a good share of them are lost by fall and spring rains. I hope your early attention will be given to the importance of this subject.

The appropriation for sewers the last year was large, but nothing is more necessary for the health of our citizens and preservation of our streets than thorough underground drainage. I trust nothing will be wanting on your part to promote a vigorous prosecution of this system, and that our successors will emulate our example until our whole city is underdrained.

The new school house on Fifth and Lincoln streets, named Sawyer School by a unanimous vote of our City Councils, in honor of long and valuable services rendered the schools in our city by Hon. Thomas E. Sawyer, is now nearly completed, but will not be ready to occupy before next spring term. A small school house in Blackwater district, so called, has been built the past season, and is now occupied. The public schools of our city, I am pleased to be able to say, have received the fostering care of our valuable and untiring school committee, who have so freely and faithfully performed the arduous duties incumbent upon them. They well have earned the public favor and gratitude for the success of the new system so recently adopted by our city. It is for them to make contracts for instruction and regulate and introduce such studies, books, and rules of instruction as to them seem best. It is for us to make appropriations and expenditures upon our school houses, and cooperate with them in all necessary and useful improvements. The deep and abiding interest of our fellow citizens in the education of the youth of this city was never more apparent than at the present time.

I would commend to all our citizens who are anxious to promote good morals and diffuse universal intelligence among the youth of our city, the great truth so beautifully expressed by Webster: "If we work upon marble it will perish; if we work upon brass, time will efface it; if we rear temples, they will crumble into dust; but if we work upon immortal minds, if we endue them with principles, with the just fear of God and our fellow man, we engrave on their tablets something which will brighten to all eternity."

Our finances are in an improved condition from last year, leaving our successors much less trouble than heretofore to meet the constantly maturing demands against the city. We have succeeded this year in funding \$100,000 of our floating debt for twenty years at six per cent. interest, payable semi-annually, making a saving to our city of \$1500 a year, providing interest averages the same as the last five years.

Our city debt is now \$219,982.77. We have paid the balances due the old school districts, which were unprovided for in the settlement of Dec 30, 1869, amounting to \$3,689.27, and have expended \$18,516.68 towards completing the Sawyer school house and a small school building at Blackwater, and in accordance with the provisions of the late amendments to our City Charter have assumed the debts of the old school districts, amounting to \$14,650. But for these demands, for meeting which no tax was levied, the debt would be much smaller than now appears.

I should do injustice to the fire department of our city did I not acknowledge my conviction that they have the entire confidence of our fellow citizens in their judgment, skill and ability to extinguish any fire that any department of their numbers and magnitude could do. By a vote of our city government, the Chief Engineer was authorized to purchase two thousand feet of hose. With this addition the department are fully provided with all necessary equipment for practical use. For further particulars I refer to the report of the Chief Engineer.

The police of our city are the conservators of peace, and it is one of our most important and necessary departments. We depend upon it for the enforcement of the laws of our State and ordinances of our city. Upon it our citizens rely for the protection of life and property; hence the importance of having none but capable, faithful, honest and true men, such as command the respect and confidence of our fellow citizens. The duties of our police have

been satisfactorily discharged the past year, so far as have come to my knowledge.

Much is said of the necessity and importance of a greater and more abundant supply of water for the comfort, pleasure and health of our citizens ; and in furtherance of this laudable object, our Representatives, at the sitting of our last Legislature, obtained a charter in the name of the city to convey water from the Willand Pond, so called. This pond is located on a very high elevation of land, about two miles from the City Hall, and so high, I believe, as to supercede the necessity of elevating the water into a reservoir, which is always attended with a daily expense, for it cannot be accomplished any other way than by a stationary engine. This favor with which nature has blessed Dover is an immense advantage over any other water supply in this section of the country. I can but hope, in view of the many advantages to health, comfort and convenience it will afford our citizens, that the day is not far distant when some plan will be devised by which the inhabitants of this city will be, as other cities now are, in the full enjoyment of such a great luxury.

Much anxiety rests in the public mind at the present time to know the cause of the many sudden deaths which are constantly occurring in our midst. Suspicion points to some impurity in the water running through lead pipes. I would recommend a scientific analysis of the water from the several fountains now in use, and that immediate action be taken for information upon this important matter.

The subject of temperance has been a constant source of anxiety and prayer with many of our Christian men and women, who have devoted much time to improve and elevate the moral condition of the intemperate, and not wholly without success. They have taken hold of the subject in earnest, especially the ladies of our city, to correct and create a public sentiment and prepare the way for the enforcement of the law whenever public opinion will sustain them. Our government has its creating power from the people, and any law made against their wishes is of no force or strength without their free and full endorsement ; hence the necessity of first securing a united public sentiment and effort to insure success.

The two hundred and fiftieth anniversary of the settlement of Dover will occur in 1873. To look back through the history of the world no farther than 1623 gives a wonderful procession of momen-

tous events. The early incidents, records and traditions of nearly all other old cities and towns in the United States have been gathered up and placed in permanent form before the public, but the history of Dover has never been written. I am, therefore, induced to recommend that measures be taken to supply this deficiency at an early day as may be consistent with the thoroughness desired, and that the services of Rev. A. H. Quint, a distinguished citizen of Massachusetts, eminently qualified by scholarship as well as his intimate acquaintance with our ancient records, be secured in furtherance of this object.

I cannot close without returning many thanks to my fellow citizens for the renewed confidence reposed in me by again electing me Chief Magistrate of your city by such unanimity of feeling. By this mark of your esteem I trust my public acts have met your approbation, and it stimulates me to increased energy and two-fold diligence in exercise of all necessary care and watchfulness over whatever interests are committed to my keeping. To the retiring members, and to all, allow me to return my sincere thanks for the courtesy and gentlemanly conduct which has ever characterized your deportment in all our gatherings.

# REPORT

## OF THE

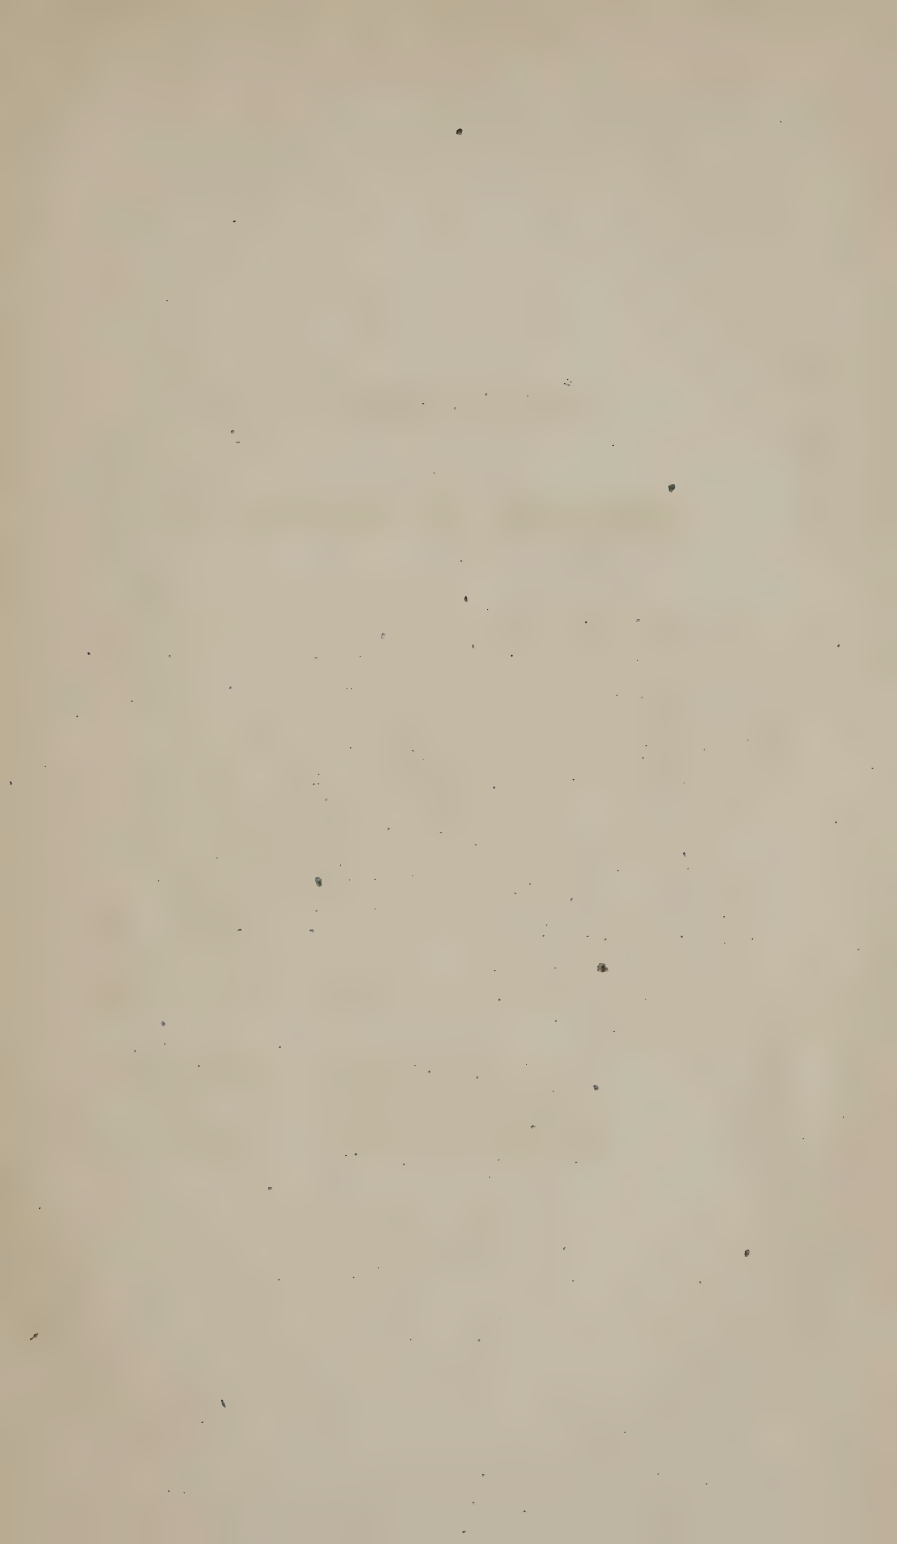

### COMMITTEE ON FINANCE.

---

CITY OF DOVER, JAN. 2, 1871.

The undersigned, Joint Standing Committee on Finance of the City Councils of said City, certify that in accordance with the provisions of an existing Ordinance, we have examined the account of Edmund J. Lane, City Treasurer for 1870, and find the same to be correctly cast and each payment properly vouched by a Treasury order, corresponding in amount with the vouchers in the office of the City Clerk. We have also examined the sources from which the income of the past year has been derived, and are satisfied that he has charged himself with the whole amount paid into the Treasury. We find that the total receipts into the Treasury during the year ending Dec. 31, 1870, including the cash balance of 1869, (\$4,352.47) have been \$267,668.20. The total payments during the same time have been \$252,846.33; leaving a balance in the Treasury of \$14,821.87.

## OF THE

### OVERSEER OF THE POOR.

*To the Hon. Mayor and City Councils of the City of Dover :*

GENTLEMEN :—I have the honor to submit the following Report as Overseer of the Poor of the City of Dover from April 8, 1870, to Jan. 1, 1871. Before giving a Report of receipts and disbursements, I wish to mention that the disbursements have been increased by bills contracted and due previous to my taking the office as Overseer, by Insane Asylum bills and by considerable sickness among the poorer classes. One family in particular, consisting of thirteen members, of which the father, mother, and from three to five of the children have been sick the most of the time during the past six months, has alone received assistance to the amount of \$275 00

Business having been generally dull the past season, it has tended to increase the expenses of this Department.

GEORGE D. NOWELL.

# REPORT

TO THE

## CHIEF ENGINEER.

---

*To the Honorable Mayor and City Councils of the City of Dover :*

I herewith, in accordance with the usual custom, respectfully submit to you as the Chief of the Fire Department, my Annual Report as an exhibit of the condition, expense, number of fires and alarms, and a list of officers and members of the Department, for the year ending December 31, 1870.

We had during the year seventeen fires, with a total loss of property to the amount of (\$66,940) sixty-six thousand nine hundred and forty dollars. The Department was called out seventeen times, and gave their assistance once to the neighboring town of South Berwick, Me.

The total expense of this Department for the year, including the salaries of all the officers and men, amounts to (\$4,135.82) four thousand one hundred thirty-five dollars and eighty-two cents.

The general condition of the Department is very good ; the officers and men under my charge are prompt and energetic in the discharge of their duties, and it affords me great pleasure to report their uniform kindness and faithfulness on all occasions.

The several Engine Houses and apparatus connected with this Department are in good order. There has been no change in the organizations and they remain as last year, viz. : one hundred and five officers and men, two steam fire engines, two hand engines, and one hook and ladder carriage and necessary apparatus for the same.

The Department has been strengthened by the purchasing of two thousand feet of leather hose ; one thousand feet is placed in the Engine House on Orchard street, and one thousand feet in the Co-

checho Manufacturing Company's hose house on Central street, to be used by the Hydrants in passing water to the several reservoirs within the reach of that length of hose.

I cannot refrain from introducing a few thoughts here in regard to the condition and capacity of the Steam Engine House on Orchard street. It has long been apparent to all intelligent observers that the building, well constructed and excellently provided as it is, by no means affords the room desirable for the two steamers. The natural difficulties attendant on driving in and out our heavy machines are aggravated by this lack of room. It seems to me to be a pertinent question whether the best interests of the City would not be subserved by erecting a suitable building for the large steamer, at or near the site of the Hook and Ladder House. Ample room for cleaning, working and moving the small steamer would thereby be secured; the stable accommodations, now wholly inadequate, made fully sufficient; and the large steamer able to reach a great part of the compact portion of the City without being moved from its house.

In conclusion, I beg leave to respectfully call your attention to the scarcity of water near J. B. Folsom & Co.'s oil cloth factory on Locust street, and also north of New York street, as there have been quite a number of new buildings erected the past year near the B. & M. R. R. Co.'s new freight depot.

I also request an appropriation for purchasing some oil cloth suits for the members belonging to the steamers.

I wish to return my thanks to Joseph W. Welch, Esq., for his kindness, and for the assistance he has rendered to the Fire Department in furnishing water with his Hydrants and the use of the Cochecho Manufacturing Company's hose on all occasions, which have proved a great assistance to the Fire Department.

#### BOARD OF ENGINEERS.

SOLOMON H. FOYE, Chief Engineer,

SILAS DUNN, First Assistant,

JOHN S. DAME, Second Assistant.

#### HOOK AND LADDER CO. NO. 1.

J. G. Wallace, Foreman; Wm H. Norton, Assistant; E. M. Jones, Clerk; Elbridge Smith, Steward; Robert Evans, Andrew J. Roberts, George Bowers, James Carleton, Horace Littlefield,

Samuel D. Gilman, John Brown, William Drew, Daniel Ford, O. T. Whittier, Thomas Robinson, J. W. Hanson, Alonzo Glidden, C. E. Lord, Ira A. Butterfield, H. W. Twombly, E. L. Fernald, George W. Downs, Ralph Marden, John H. Grover, George Butler, King Fernald.

#### DOVER STEAM FIRE ENGINE CO. NO. 1.

Mark F. Rand, Foreman; Fenton Howland, First Assistant; Oliver F. Webster, Second Assistant; John F. Willand, Clerk; Albert A. Fairbanks, Engineer; Samuel M. Welch, Fireman; Wm. Hilliard, Assistant Fireman; William F. Rogers, Herbert A. Canney, John G. Frost, Michael Conlen, S. O. Hanscom, James Howard, Frank F. Davis, John W. Rines, Patrick Quinlan, John H. C. Woodes, Theodore L. Young.

#### COCHECHO STEAM FIRE ENGINE CO. NO. 2.

Libbeus Hill, Foreman; John Palmer, First Assistant; Charles Spurling, Second Assistant; George A. Webster, Clerk; Thatcher T. White, Engineer; Josiah Stackpole, Fireman; John S. Stackpole, Assistant Fireman; Horace Gowen, Smith W. Grey, Hiram F. Snow, Charles R. Edgerly, John W. Trefethen, Benjamin H. Warner, Ephraim Wentworth, Frank Raitt, George W. Chamberlain, John H. Warner, Charles F. Glidden.

#### TIGER ENGINE CO. NO. 2.

M. Quinlan, Foreman; Samuel Locke, First Assistant; C. L. Chatman, Second Assistant and Steward; C. T. Henderson, Clerk; Jesse Whitehouse, G. W. Whitehouse, G. H. Chase, Geo. Dunn, P. Sterling, H. Tasker, C. T. Cole, James Grimes, Thomas Tolmay, James Starling, George Drew, John White, John Brown, James Sherry, George Whitehouse, Benjamin Whitehouse, Charles Ricker, Charles Guppy, G. W. Gray, Horace Whittier, James Bartlett, Charles Glidden, Peter Riley, Patrick Develin, James Tuttle, Martin Flutey, Dustin G. Jones, R. Smart, Thomas Printy, Francis Hughes, James Knox, J. Gentleman, E. Burnham, Peter Quinn, George Greenwood, Moses Moore, Herbert Ricker.

JOHN S. STACKPOLE, SUPT. OF BURIALS.

# REPORT

OF THE

## CITY MARSHAL.

---

*To his Honor the Mayor and Board of Aldermen :*

The undersigned, City Marshal of Dover, respectfully submits the following Report of the Police Department for the year ending Dec 31, 1870, giving the number of arrests, with such details as may be desirable for the information of the City Government :

Amount paid into City Treasury, \$757 15.

Expenses of Police Department for the year ending Dec. 31, 1870, \$2591 06.

I have endeavored at all times to make the persons and property of all our citizens as secure as possible. The peace and good order of a community is attributable to the existence of its Police force. As the usefulness of this department rests as much upon its moral power as its physical action, it must I think be considered the duty of all good citizens to encourage and sustain its organization, irrespective of any indiscretion on the part of any individual member ; and with the spirit of charity judge the motive and investigate the truth.

The Table on the following page shows the number of arrests made in each month during the year, together with the causes which led to such arrests.

# TABULAR REPORT.

Cause.	Jan.	Feb.	Mar.	Apr.	May	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Total.

## HIGHWAY DISTRICTS,

AS ESTABLISHED BY THE CITY COUNCILS, MARCH 20, 1865.

---

*Resolved*, I. That Highway District No. 1 be extended to the junction of Back River and Durham Roads.

II. That Highway District Nos. "Two and Three," be added to and included in Highway District No. "One."

III. That Highway District No. "Twenty-two be extended to the large Elm Tree east of E. Faxon's house.

IV. That so much of Highway District No. "Twenty-three as runs from Rebecca Pinkham's gate to the turn of the road near Andrew T. Robert's dwelling house, be disannexed from said District No. 23 and annexed to and made part of Highway District No. 14, and so much as runs from the turn of the road near the dwelling-house of Samuel H. Hanson to Nathaniel Carlton's dwelling-house, be disannexed from said District No. 14 and annexed to and made part of Highway District No. 23.

*District No. 1*—Shall embrace all the streets, lanes and alleys in the compact part of the city, also Locust (formerly High), street to its head, Arch street, Silver and Washington streets to their junction with Arch, Fourth to its junction with Tolend Road, Brick street to its junction with Grove, Franklin Street to its junction with Chestnut street at the house of Capt. Porter, the Rollins road to its junction with Fresh Creek road, the Turnpike to Rollinsford line, Rogers street, the Gulf road west of Cushing's Mills, Payne street to the culvert beyond Plate's Hill, Mt. Pleasant to Cross road, Cross road to Neck road near James Caton's house, Pleasant street to John Meserve's house and to head of Locust.

*District No. 2*—Shall begin at Cushing's Mills, thence to James McDuffee's gate, the old road by Capt. James B. Guppy's to Fresh Creek road, and Fresh Creek road east to the Rollins Road to Rollinsford line.

*District No. 3*—Shall begin on Franklin street at the house of Capt. Porter, near the corner of Chestnut street, thence to the house of Levi Sawyer on Garrison Hill, including the Fresh Creek road, west of the Rollins road.

*District No. 4*—Shall begin at the house of Levi Sawyer on Garrison Hill, thence to Somersworth line and W. Moore's house; also by the house of the late E. Hurd to Rollinsford line.

*District No. 5*—Shall begin at Somersworth line near Henderson's house, thence down to Gage's hill, also by Moses Hussey's house to the new road, and to Reynard's brook.

*District No. 6*—Shall commence at Somersworth line on Blackwater road, thence to the Rochester and Somersworth lines.

*District No. 7*—Shall begin at Reynard's brook south of David Sargent's house, thence by said Sargent's to Rochester line; also the road leading by the school-house to the railroad crossing and the road to Moses Farnham's

*District No. 8*—Shall begin at the junction of Grove and Brick streets, thence by the house of Ezra Kimball to Indian brook; also the road by Richard Kimball's house to the house of Mr. Fuller, thence to the railroad crossing near the Whittier bridge; also the Upper Factory road, from the school-house to the south side of the bridge.

*District No. 9*—Shall begin at Indian brook near the house of Oliver S. Horne, thence by the house of Joseph W. Bennett to the railroad crossing, on the cross road and to the railroad crossing near the Alms house, and by the house of Paul Horn to the house of Moses Farnham.

*District No. 10*—Shall begin at the railroad crossing near the Alms House, thence by the house of Timothy H. Snell to Rochester line, the road leading to John Trickey's farm, and the cross road by the house of Horace Kimball to the railroad crossing.

*District No. 11*—Shall begin at Dover Point, thence to the junction of the roads near the house of the late Jeremy Roberts.

*District No. 12*—Shall begin at John Meserve's house, thence to the bridge below Stephen Austin's house.

*District No. 13*—Shall begin at the junction of the roads near the house of the late Jeremy Roberts, thence to the red school-house, and main road to and across the bridge below Stephen Austin's house, with all the cross-roads.

*District No. 14*—Shall begin at Amaziah Brownell's house, thence

by the house of Nicholas Varney to Nathaniel Carlton's house and the Cowan road.

*District No. 15*—Shall begin at the culvert at Plate's Hill, thence by Samuel Hanson's, 2d, to the old road and the Amos Burrows road.

*District No. 16*—Shall begin at the house of James Wentworth, thence to Spruce Lane, the David and Samuel Tuttle roads, the new road to Reynold's Bridge, and the road to Madbury line.

*District No. 17*—Shall begin at the head of Locust street, thence to Spruce Lane, the Mast road to Reynold's bridge, the Drew Lane and the Spruce Lane.

*District No. 18*—Shall begin at the Madbury line, thence by Simon J. Torr's house to Dunn's bridge, the Mast road to Reynold's bridge, and Pudding hill road to Madbury line.

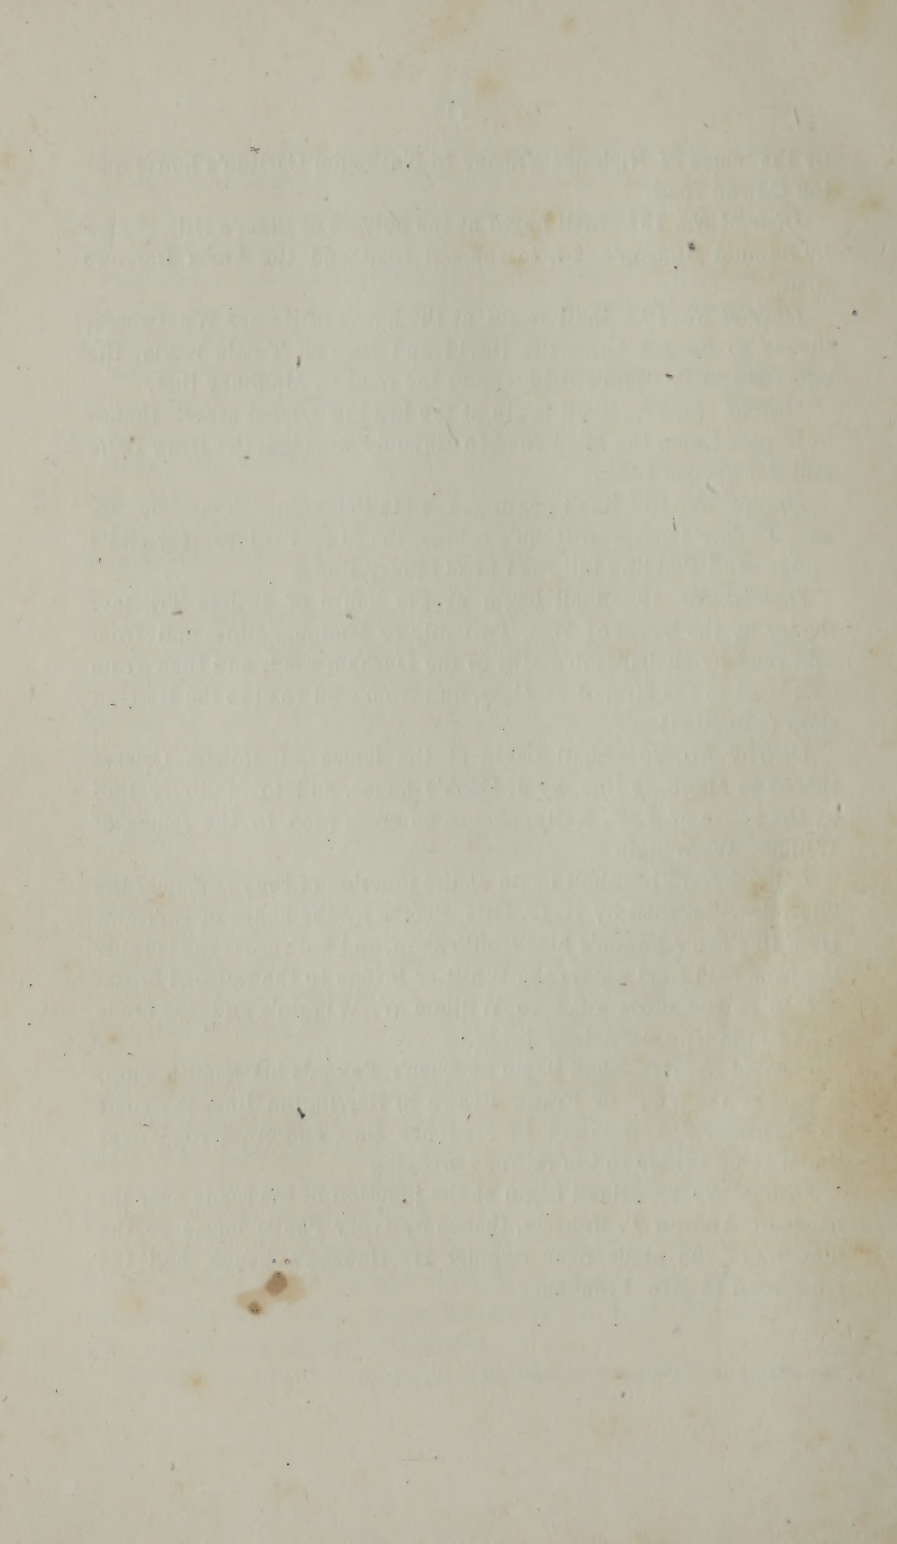

*District No. 19*—Shall begin at the house of Joshua Trickey, thence by the house of Wm. Twombly to Madbury line, and from said road by Richardson's Mill to the Durham road, and then from said road to the farm of E. Cate, and from said road to the Hanson shop (so called).

*District No. 20*—Shall begin at the house of Robert Cristy, thence to Madbury line, by J. Cook's house, and to Madbury line by the house of J. F. Kelly, thence on cross road to the house of William W. Wiggin

*District No. 21*—Shall begin at the junction of the roads near the house lately owned by H. G. Otis, thence by the house of Ephraim Ham to Eben'r Faxon's blacksmith shop, and both cross roads leading from said road across the Whittier bridge to the railroad crossing; also the cross road to William W. Wiggin's and the cross road to the Upper Factory bridge.

*District No. 22*—Shall begin at Eben'r Faxon's blacksmith shop, thence by the house of Frank Brawn to Barrington line, the road to Rochester line, the road to Madbury line, and cross road over the Watson bridge to the railroad crossing.

*District No. 23*—Shall begin at the junction of the roads near the house of Andrew T. Roberts, thence by Ivory Paul's house to the junction of the roads near Samuel H. Hanson's house, and the cross road to Mrs. Pinkham's.

## PARTICULAR NOTICE

### TO PERSONS HAVING CLAIMS AGAINST THE CITY.

CITY CLERK'S OFFICE, }  
City of Dover, March, 1871. }

Persons having claims against the City should carefully note the name of the individual who orders the articles, or service, and should inquire to what department the charge shall be made.

When there are charges belonging to different departments, separate bills must be made, including only charges belonging to each department. What these are, may be readily seen by reference to the foregoing accounts.

Unless this is done, the claimant will be put to the trouble of making out his account the second time.

The claimants should then have the bill approved by the person who authorized the charge; and then presented to the City Clerk.

All bills thus prepared and delivered to the Clerk at any time *during* the month, will be laid before the Committee on Accounts at their next meeting, which is on the first Monday of each month, at 3 P. M. Bills not thus prepared and delivered will lay over one month.

JOHN B. STEVENS, JR., *City Clerk.*
